Skills

- **Languages:** French (native), German (native), English (advanced, C2), Dutch (beginner, A2), Spanish (intermediate), Portuguese (beginner).
- **Programming languages:** Major work performed in: C (C90, C99), C++ (experience with C++98, C++14, C++20), Java (SE 6), Matlab (2009), Perl (5), Python (3), shell scripting (POSIX, Bash, KornShell (KSH)); work performed in: Ada, AWK, BASIC, JavaScript, Julia, Logo, Object Pascal, Octave, PHP, Turbo Pascal.
- **Operating systems:** Major work performed on: GNU/Linux (Ubuntu, Red Hat), Windows, AIX; work performed on: FreeBSD, macOS.
- **Source code management and bug tracking:** Bugzilla, CVS, Git, Gitlab/Github/Bitbucket, Jira, Kanban, Subversion/SVN.
- **Build systems and continuous integration/delivery (CI/CD):** Ant, Autoconf/Automake, Cook, Jenkins, Make, Maven, Stu (I am the author).
- **Typesetting and layouting:** CSS, HTML, JSP, Tex/Latex.
- **Query, data processing and representation technologies:** CSV, RDF, relational databases, sed, SQL, XSLT.
- **Programming methodologies and topics:** Agent-oriented programming, agile software development, character encodings, chess programming, data manipulation / data engineering, internationalization, linear programming / optimization, machine learning, message passing, numerical computing, object oriented programming, parsing, regular expressions, scrum, systems programming, visualization / plotting.
- **Networking and organizational skills:** Organisation of conferences, workshops, off-campus meetings, use of Twitter/Facebook for outreach, popularization of scientific topics.
- **Teaching and didactical skills:** Lectures, seminars, projects, supervision of bachelor/master/PhD theses, drafting and correcting exams. I have given both lectures and academic talks in English, French and German.
- **Scientific topics:** Algebraic graph theory, complex networks, data mining, databases / relational algebra, game theory, graph theory, linear algebra, machine learning, matrix decompositions, network science, network theory, random graphs, recommender systems, search engines / information retrieval, semantic web, web science.
- **Research highlights:** First study and large published dataset about social networks with negative ‘enemy’ edges [30], large-scale study of web tracking [12], algebraic analysis of bipartite networks [26] and signed graphs [27], invented a machine learning technique for link prediction [29], introduced the spectral evolution model for networks [25], introduced measures for the skewness of degree distributions [21].

Soft Skills

- **Adaptability:** I have worked both in the industry and in academia. This gives me a unique perspective on the value of programming and management techniques, as well as the experience when to use them.

¹This version of this file is up to date as of March 02, 2023.

- **Communication:** I love to convey ideas to other people. As a scientist, talking about new approaches to problems is second nature to me. As is disseminating results to larger audiences.
- **Teamwork:** I am able to work in teams small and large, with collaborators close and distant, from my own teams as well as from other companies. I have both managed a team of developers, as well as been an individual developer in a team.
- **Creativity:** My usual approach is to go beyond the standard “do what everyone does” and to find novel solutions to problems. This is a core skill for a scientist, which I also strive to apply to software development.
- **Analytic thinking:** Being precise is important to me. “It kind of works” is not enough – things must be shown to work via extensive testing, as well as via theoretical consideration.
- **Eclecticism:** There’s more than one way to do it. I don’t believe that there is one ideal way to solve a given problem. In my career, I have learned and used a large diversity of programming languages in order to give me a broad range of tools to solve real-world computer science problems.

Software Development

- **CREST over SwiftNet** 2023–present
Message passing platform (C, C++)
- **FractAda** 2022
Animated fractal generation (Ada)
- **Flora** 2020–present
Plant collection database and phylogenetic visualization tool (C++20)
- **Tracking Analysis** 2018
Analysis of large-scale web tracking data (shell script, Matlab)
- **Santé** 2018–present
Health data mining and analysis (Python)
- **Social Information Processing** 2014–2017
Cloud infrastructure for intra-department collaboration on computing projects (acquisition and management of 18-machine cloud)
- **REVEAL** 2014–2016
Latent data discovery (Octave)
- **LiquidFeedback** 2014–2015
Extraction and analysis of data from a liquid democracy platform (Python, shell scripting)
- **Polcovar** 2013
Symbolic calculation of the number of arbitrary subgraph counts in Erdős–Rényi graphs (Matlab, Octave)
- **SynGraphy** 2013–2015
A library for graph generation based on arbitrary graph properties (Matlab)
- **Petster** 2013–2017
Crawling and analysis of social media data from pet social networks (shell scripting, Matlab, Python)
- **SocialSensor** 2013–2014
Social media content analysis platform (Java)
- **KONECT-Toolbox** 2012–2022
Toolbox for calculation of network statistics, matrix decompositions and other characteristics (Matlab, Octave)
- **Stu** 2012–present
Build system for large data analysis projects (C++14)
- **KONECT-Web** 2011–present
Website of the KONECT project (HTML, shell scripting, Perl, Octave, Stu)

- **KONECT-Analysis** 2011–2022
Analysis code of KONECT, creation of plots and visualizations (C++11, shell scripting, Matlab, Octave, Julia, Perl)
- **KONECT-Extr** 2010–2019
Extraction library for the 1000+ KONECT network datasets (shell scripting, C99, Perl)
- **ROBUST** 2010–2013
Analysis of business communities (Java)
- **LiveTweet** 2010–2011
Extraction and analysis of Twitter trends (Java, Matlab)
- **Learning Semantic Recommenders** 2010
Link prediction library on network data with semantic relationships (Java)
- **SmartSenior** 2009–2010
Intelligent services for elderly people (Java)
- **WebTV** 2008–2010
Recommender system for smart TVs (Java)
- **Slashdot Zoo** 2008–2009
Crawling Slashdot.org and analysis of friend/foe relationships (shell scripting, Matlab)
- **Universal Recommender** 2007–2010
Library for building recommender systems (Java)
- **Search Results Optimization via Linear Integer Programming** 2006
Search engine using linear integer programming to support hard and soft constraints (Java)
- **DDDC** 2005–2010
Monitoring tool for continuous deployment (shell scripting)
- **PIA – Personal Information Agent** 2002–2010
Search engine and social exchange site for scientific documents (Java, HTML, CSS)
- **BabyChess** 1998–2006
Chess engine and desktop application (C++98)

Education

- [E1] **Dr. rer. nat.**, University of Koblenz–Landau, Germany 2011    
(Computer science, PhD-equivalent)
Thesis: *On the Spectral Evolution of Large Networks*
- [E2] **Dipl.-Inform.**, Technical University of Berlin 2006 
(Computer science, Master-equivalent)
Thesis: *Using Integer Linear Programming for Search Results Optimization*
- [E3] **Vordiplom**, Technical University of Berlin 2003
(Computer science, Bachelor-equivalent)
Studiengang: Informatik
- [E4] **Baccalauréat**, Lycée Français de Berlin 1999
(French high school diploma)
Série scientifique
- [E5] **Abitur**, Lycée Français de Berlin 1999
(German high school diploma)
Leistungskurse: Mathematik, Physik
- [E6] **Diplôme national du brevet**, Lycée Français de Berlin 1996
Série collège

Positions	Dev/Systems Engineer	2023–present
	Society for Worldwide Interbank Financial Telecommunication	
	Postdoctoral Researcher	2017–2019
	Namur Center for Complex Systems (naXys), University of Namur	
	Postdoctoral Researcher	2011–2016
	Institute for Web Science and Technologies, University of Koblenz–Landau	
	Visiting Postdoctoral Researcher	2013
	Networks and Operating Systems Group, University of Cambridge	
	Research Assistant	2010–2011
	Institute for Web Science and Technologies, University of Koblenz–Landau	
Research Projects	Research Assistant	2006–2010
	DAI Laboratory, Technical University of Berlin	
	Student Research Assistant	2002–2006
	DAI Laboratory, Technical University of Berlin	
	Intern, Air Traffic Control Tower	1997
	Berlin-Tempelhof Airport	
	• KONECT	2011–present
	Koblenz Network Collection	
	• IDEES (ERDF/FEDER – Wallonia/Wallonie)	2017–2019
	L’Internet de Demain pour développer les Entreprises, l’Économie et la Société	
	• REVEAL (EU FP7-ICT)	2014–2016
	Revealing Hidden Concepts in Social Media	
	• SIP (DFG WGI)	2014–2016
	Social Information Processing – Cloud Infrastructure at the Univ. of Koblenz–Landau	
	• SocialSensor (EU FP7-ICT)	2013–2014
	Sensing User Generated Input for Improved Media Discovery and Experience	
	• KONECT Cloud	2012–2013
	Large Scale Network Mining in the Cloud	
	• ROBUST (EU FP7-ICT)	2010–2013
	Risk and Opportunity Management of Huge-Scale Business Community Cooperation	
	• WeKnowIt (EU FP7-ICT)	2010
	Emerging, Collective Intelligence for Personal, Organisational and Social Use	
	• MULTIPLA (DFG)	2010
	Multi-Ontology Learning: Crossing the Boundaries of Domains and Languages	
	• LSR	2010
	Learning Semantic Recommenders	
	• UCPM	2010
	User Centric Profile Management	
	• SERUM	2010
	Semantic Recommenders Based on Large Unstructured Datasets	
	• Connected Living	2009–2010
	Innovationszentrum “Vernetztes Leben” – Innovation Center “Connected Living”	
	• SmartSenior	2009–2010
	Subproject Service Infrastructure and Usability Engineering – Intelligent Services for Elderly People	
	• WebTV	2009–2010
	Semantic TV Recommendations	
	• PIA	2006–2010
	Personal Information Agent	

Lecturing	<ul style="list-style-type: none"> • Graph Theory (Théorie des graphes, in French), Mathematics (BSc), Univ. of Namur, First Quadrimester 2017/18, 2018/19. • Network Theory and Dynamic Systems (in English), Web Science (MSc), Univ. of Koblenz–Landau, Summer Term 2014, 2015, 2016. • Introduction to Database Systems (Grundlagen der Datenbanken, in German), Computer Science (BSc), Univ. of Koblenz–Landau, Winter Term 2012/13, 2013/14, 2014/15, 2015/16.
Other Teaching	<ul style="list-style-type: none"> • Advanced Topics in Network Science (Seminar), Univ. of Koblenz–Landau, Summer Term 2016. • Learning Analytics: Aspects of Machine Learning and Empirical Psychology in E-Learning (Learning Analytics: Aspekte des Machine Learnings und empirischer Psychologie beim E-Learning, Proseminar), Univ. of Koblenz–Landau, Winter Term 2015/2016. • Recommender Systems (Seminar), Univ. of Koblenz–Landau, Summer Term 2015. • Distributed Scalable Network Analysis (Research Lab), Univ. of Koblenz–Landau, Winter Term 2014/2015. • Advanced Topics in Network Theory (Seminar), Univ. of Koblenz–Landau, Summer Term 2014. • Network Theory and Dynamic Systems, Web Science (MSc), tutoring, Univ. of Koblenz–Landau, Summer Term 2013, 2014. • Social Networks (Soziale Netzwerke, Proseminar), Univ. of Koblenz–Landau, Summer Term 2012, 2013. • Introduction to Database Systems (Grundlagen der Datenbanken), tutoring, Computer Science (BSc), Univ. of Koblenz–Landau, Winter Term 2010/2011, 2011/2012.
Supervised Theses	<ul style="list-style-type: none"> • Marcel Reif. Automatische Erkennung von exakten und Near-Duplikaten in einer Netzwerkdatenbank, <i>BSc</i>, Univ. of Koblenz–Landau, 2016.  • Nils Geilen. Entwicklung eines Systems zur Vorhersage von Nutzeraktivität auf den Diskussionsseiten der Wikipedia, <i>BSc</i>, Univ. of Koblenz–Landau, 2015.  • Jesús Cabello González. Berechnung und Approximation von Kürzeste-Pfad-Statistiken in großen Netzwerken für KONECT, <i>BSc</i>, Univ. of Cádiz, 2014.  • Julia Preusse. Analysis of the WebUni Online Student Community, <i>Dipl.-Inform.</i>, Otto von Guericke Univ. Magdeburg, 2010.  • Stephan Spiegel. A Hybrid Approach to Recommender Systems based on Matrix Factorization, <i>Dipl.-Inform.</i>, Tech. Univ. Berlin, 2009.  • Christian Banik. Recommending Wiki Articles using Collaborative Filtering, <i>Dipl.-Inform.</i>, Tech. Univ. Berlin, 2009.  • Iris Breddin. Untersuchung der Klassifizierbarkeit und Klassifikation von Schweißnahtdaten, <i>Dipl.-Inform.</i>, Tech. Univ. Berlin, 2008. 
Conference Organization	<ul style="list-style-type: none"> • Joint International Workshop on Social Influence Analysis and Mining Actionable Insights from Social Networks (SocInf+MAISoN) at the Int. Jt. Conf. on Artif. Intell. and Eur. Conf. on Artif. Intell. (IJCAI-ECAI), 2018, Stockholm, Sweden, Program Chair.  • WeST Off-Campus Meeting (OCM), 2016, La Roche-en-Ardenne, Belgium, Chair.  • INFORMATIK (largest German computer science conference), 2013, Koblenz, Germany, Publicity Chair.  • Web Science Conference, 2011, Koblenz, Germany, Publicity Chair.  • Special Session on Uncertainty in Network Mining (UNM) at the Int. Conf. on Inf. Processing and Manag. of Uncertainty in Knowl.-based Syst. (IPMU), 2010, Dortmund, Germany, Technical Chair.
